

## **Join a NRMLA Committee Help Shape the Association!**

One way to enhance your membership in NRMLA is to participate on a NRMLA Subcommittee. Our goal is to harness your knowledge and expertise, so that NRMLA can be a more effective advocacy organization. Choose from one of the following committees:

- (1) Government Affairs;
- (2) Industry Issues; and

Government Affairs will address federal and state legislative, regulatory and policy matters. Industry Issues will focus on building the future of our business and helping member companies with their internal operations by covering topics such as product development, secondary markets, compliance, technology and professional development.

Committee membership is open to any NRMLA delegate whether Primary, Alternate or Additional.

Each committee sets its own schedule, but in general will convene face-to-face at least twice a year at NRMLA conferences and via conference call as needed to carry out activities in between meetings.

## NRMLA Committee Application

Sign up now for a committee by filling out the application below and sending your bio and resume. If you have any comments or questions, please contact Darryl Hicks, 202-939-1784, or by e-mail at dhicks@dworbell.com.
