

Christopher Downey is the President of Harbor Mortgage Solutions, Inc., a residential mortgage brokerage in the Boston, MA area and has a career in residential mortgage lending exceeding thirty-two years.

Prior to joining his father, former Board member George Downey, at Harbor Mortgage Solutions, Chris was a licensed securities registered representative working at a Registered Investment Advisory firm in Boston, MA, serving wealth management clients. After joining Harbor Mortgage Solutions, Chris worked on forging relationships within the financial advisory and financial services communities to serve the mortgage needs of their respective clients.

In the year 2000, Chris introduced Harbor Mortgage to reverse mortgages and together with George, made the decision to have their firm provide these programs and become immersed in the issues and needs of the demographic that the programs target. Shortly after entering the reverse mortgage marketplace, Harbor Mortgage Solutions became a member of NRMLA and has proudly been involved ever since. Chris attributes much of their knowledge and insight of the reverse mortgage marketplace to this relationship.
